# How **Animated Videos** May Help Your Business

Customers today want to engage with their favorite companies by watching exciting video content. Following are a few of the many ways in which an animated video may help your business.

- 👍 Enhanced Interactivity
- 👍 Higher Conversion Rates
- 👍 Improved Brand Awareness

# How We Create Animated Videos

Our work process reflects our professionalism. We believe in the no-size-fits-all mantra. As a result, we tailor our video animation services to meet each customer's specific objectives rather than taking a cookie-cutter approach.

01

## Script

Our scriptwriters will write a script for you that allows you to convey an engaging story about your company, product, or service.

02

## Briefing

We'll put together a list of your needs and talk about your explainer video's animation style, goal, and length.

03

## Animation

At this stage, we bring static pictures to life by animating them. We create an entertaining video by combining a storyline, drawings, and voices.

04

## illustrations

Our graphic designers will create a distinct visual style for the storyline and turn it into a series of stunning illustrations.

05

## Storyboard

Our storyboard artists will create a simplified visual representation of how the final explainer video will play out at this point.

06

## Voice Over

We work with several outstanding voiceover artists who can offer a strong voice for your video. You have the choice of selecting any voice, gender, or language.
